## </FULL-STACK DEVELOPER>

I am a FullStack developer and have worked with the MERN stack with expertise in planning, development, project management, and problem-solving. I am a learner with a constant interest in learning something new. I do not abandon a situation or my responsibilities. I think there's always a solution to a problem that we just have to figure out.

### PROJECT EXPERIENCE

- > **BUS TRACKING [SCHOOL BUS]**  
Track Bus and Fee Management
  - Backend - NodeJs, ExpressJs, Socket.io
  - Database - MongoDB
  - Authentication - Firebase Phone auth and JWT token
  - The application included an ERP system to manage the Passengers and the Bus operators.
  - Realtime tracking using GoogleAPI and Socket.io as WebSockets
  - Passengers can join the application
  - Online/Offline Fee management with OTP
  - Realtime notification for the users
- > **HIRING [HYREME]**  
A local hiring app
  - Backend - NodeJs, ExpressJs, Socket.io
  - Database - MongoDB, Local Storage for the application
  - Authentication - Firebase Auth
  - Consumers could hire professionals to meet their needs, including home guardians, electricians, etc.
- > **WEB APP FOR FOR CAR CENTER**  
ERP System
  - Development of a web application with React.js as well as a mobile application using flutter.
  - The app enables the user to manage the company, employees, and clients with ease.
  - It featured features such as push notification, security, online payment, WhatsApp and email integration, appointments, employee management, and much more.

### WORK EXPERIENCE

- > **MERN/REACT NATIVE DEVELOPER**  
- HASPR.IN - Sep-2019 ~
  - Worked as a project lead, and successfully rolled out applications from development to deployment.
  - Worked with third-party libraries.
  - Special focus on the security and reliability of the application.
  - Build reusable and performance-driven components.
  - Followed best coding practices and improved code quality.
  - Solved many real-world problems.
  - Designed software architectures.

### EDUCATION

**Bachelor of Technology, in Information Technology**  
- CGPA 7.38  
Indira Gandhi Government Eng. College

### SKILLS & PROFICIENCIES

- NodeJs, ExpressJs , Socket.io , Fastify,WebSockets || EXP - 1 Yrs
- MongoDB, Firestore, RxDb, Redis, Async Storage || EXP - 1 Yr
- Digital Oceans. Google Cloud Platform, Firebase. || EXP - 1 Yr
- React Native, Redux, Maps, Context API, Axios, Animations, etc. || EXP - 2 Yrs
- Javascript ES5/6/19. || EXP - 2 Yrs
- ReactJs, NextJs || EXP - 2 Yrs
- HTML5/CSS3/Tailwind/Sass || EXP - 2 Yrs
- Teamwork, multitasking, and attention to detail || EXP - ∞ Yrs
- Software and web development

### LANGUAGES

- American English (Fluent)
- Hindi (Native)
